Design and Durability

ArrowLine Permanent Metal Shakes[™] were developed to work as a siding product or a roofing product. Their unique texture makes the Shake panels ideal for sidewall applications because of their authentic design and looks. ArrowLine's 12" exposure will give your home a striking look reminiscent of houses from a more elegant time.

ArrowLine Metal Shakes are coated with a Kynar 500[®] finish that will stand up to the harshest environments while still giving you maximum color retention and distinctive beauty that will last for years to come. Many of the colors are EnergyStar rated which could reduce your energy costs also. ArrowLine Shakes are available in 15 standard colors and 4 Enhanced blended colors.

Backed by a Lifetime Non-Prorated Limited Warranty to give you peace of mind for years to come. ArrowLine's double emboss texture adds strength and durability to give it the highest Hail Impact (Class 4) rating that meets many insurance companies requirements for a discount on your Homeowners policy.

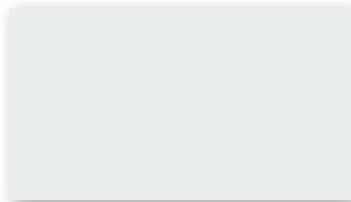

Excellent Performance

ArrowLine Shakes have a unique 4-way locking system that allows them to be installed quickly and easily which reduces labor costs. This 4-way system locks out the harshest of weather conditions. Permanent and virtually maintenance-free ArrowLine Shakes last for years to come.

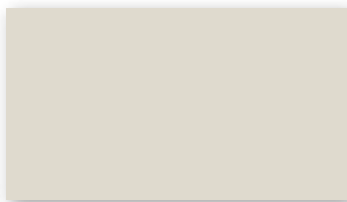

The next wave in lasting building materials should make ArrowLine your first choice for your project.
