Transform your home with the elegance and strength found in EDCO Metal Siding

When selecting siding for an upcoming project, it is important to choose a product that offers unprecedented value to achieve both the appearance and the quality your home and/or business deserves.

EDCO Metal Siding, with a natural wood-grain appearance, is the most durable material available. It can withstand the most extreme weather conditions - hail, wind, snow and ice, while maintaining its original look for years to come without lifting a paint brush. The benefits of installing metal siding will give any home or business owner peace of mind. Some of the benefits include:

- Proprietary finish that will not chip, crack or peel, but can also reduce energy costs
- Unmatched lifetime non-prorated warranty that includes material and labor
- 35-year fade protection
- Metal siding is moisture resistant ensuring it will not swell, decompose or develop mold over time
- Our siding is 100% recyclable

ENTEX[®] Siding

V12" Board & Batten in
Glacier White

Profiles Available

Double 4"

Double 5" Dutchlap

Single 6"

Single 8"

Vertical 12"

Protect your home with **unmatched strength and timeless style**

Whether you choose traditional lap, dutchlap, vertical, shake or a combination of these products, you have endless design opportunities from EDCO that provide distinctive style and lasting quality to your home or business.

Our innovative ENTEX® Cool Chemistry® paint technology, with a natural wood-grain appearance, simply will not chip, crack, peel or fade over time which means less time spent maintaining the appearance of your home or business and eliminates the need to paint in the future.

EDCO's metal siding consistently outperforms many other siding materials available today. We back up this performance with the industry's only true lifetime, non-prorated warranty that includes material and labor. In addition, our ENTEX® siding includes 35-year fade protection.

NOTE: All colors shown are as accurate as possible. Please refer to actual color chip samples before making your final selection.

Be the **envy of your neighborhood** with stunning **beauty** that will **transform** the exterior of any home or business

Based on our proprietary ENTEX® finish, the attractive Prism metal siding from EDCO offers rich, elegant colors with a subtle hint of mist.

Available in a variety of colors, the technological advancement of EDCO's Prism finish offers long-term color retention which means you will never paint again. In addition, it will not chip, crack, peel or fade over time. We back up this performance with the industry's only true lifetime, non-prorated warranty that includes material and labor. In addition, our Prism siding includes 35-year fade protection.

Prism is available in a single 6" traditional lap and vertical 12" board and batten siding profiles. Color-coordinated accessories are also available to complete the look of any home or business.
