BUILT FOR A LIFETIME

Crafted from 28-gauge, non-combustible steel, Endura's ENTEx® coating resists fading, chipping, cracking, or peeling. Backed by an industry-leading, limited lifetime warranty, it's built to last.

ZERO-MAINTENANCE EXTERIOR

Unlike other materials, EDCO steel siding never needs to be painted, sealed, or stained. It maintains its beauty for decades, even in harsh weather and intense sunlight.

DESIGNED TO DEFY THE ELEMENTS

Engineered for any climate, Endura siding withstands fire, wind, impact, and extreme temperature swings. Its 28-gauge steel construction naturally resists moisture and pests, preventing damage and reducing maintenance.
